with a slit that holds the card

4-page card holder: 110 × 80 mm
(220 × 80 open), 2 slots

Coated board, full colour, optional
lamination · supplied flat, creased

Free proof before printing

YOUR PRINT FILE

PDF preferred (JPG, AI, EPS, PSD accepted), fonts
outlined or embedded.

300 dpi minimum at actual size.

CMYK — black text in 100 % black only.

3 mm bleed: extend images and colour areas to the
edge of the file.

3 mm safe zone: no text or logo closer than 3 mm
to a cut or a fold — images and colour areas
may cover the whole surface.

THE DIELINE

Each template contains the actual dieline: cut (black
line), folds (grey dashes), slots and slit. Place your
design on top without moving the dieline: we use it
as it is for production.

PRINTED SIDES

Sleeve and folded holder: one printed side
(the outside, once folded).

4-page holder: double-sided — page 1 outside
(back and front cover), page 2 inside with the
slots that hold the card.

3 ready-to-use templates

Dieline, folds, bleed and safe zone at actual size.
